

# IT'S CHILD'S PLAY

FOR GROUTING AND LAYING TILES  
**PCI DURAPOX PREMIUM**

The epoxy resin mortar with the smooth grouting behavior of a cementitious grout.

- Very easy joint grouting – with only one hand
- Washing without any residual slurry with PCI Durapox Finish
- Available in 17 brilliant colors for individual designs

# PCI DURAPOX PREMIUM

## APPLICATION IS CHILD'S PLAY

The PCI Durapox Premium epoxy resin mortar was especially developed for grouting optically high-quality surface areas such as e.g. tiles, mosaics and fully-vitrified tiles. For chemical-resistant and water-impermeable laying and grouting for wall and floor coverings. Also ideal for walk-in showers of 1 – 2 m<sup>2</sup> in private areas.

**Step 1:** Very easy grouting without residues using PCI Durapox Premium. The product is very easy to process using standard tools. No special epoxy resin tools are needed. After about 10 to 45 minutes, the grouted surface should be worked over with a sponge float and then washed down cleanly.

**Step 2:** Before the final washing stage, PCI Durapox Finish (liquid) is sprayed onto the surface after about 60 minutes. Alternatively, PCI Durapox Finish (concentrate) can be added directly to the washing water.

**Step 3:** Then remove the remaining slurry with a sponge float and wash the surface down cleanly.

### Premium advantages

- Very smooth grouting behavior just like cement-based grouting mortar
- Brilliant in 17 color shades for individual designs
- Very easy to clean due to the easy-to-clean effect and resistant to acidic household cleaners and cleaning agents

### Advantages for the processor during application

- Low-odor and UV-resistant
- No special tool required for grouting
- Very easy to wash without residual smear with the washing aid PCI Durapox Finish

### Overview color scheme

01 Brilliant white	11 Jasmine
43 Pergamon	02 Bahama beige
23 Light grey	03 Caramel
16 Silver grey	55 Nut brown
21 Grey	57 Fawn brown
22 Sand grey	05 Mid brown
31 Cement grey	41 Dark brown
19 Basalt	
47 Anthracite	
40 Black	

The colors shown may deviate from the actual colors of the product as a result of the printing process. Joint width 1 – 20 mm

### PCI Durapox Finish

Washing aid for epoxy resin mortar

- 500 ml spray bottle (liquid)
- 750 g tin (concentrate as an additive in washing water)
